

SCANNDY:inventory

A PANMOBIL AUTO-ID SOLUTION

Year-End means time for Inventory!

- Inventory package including barcode-scanner and Quick-Start-Software.
- Also include: Warehouse In- and Out

SCANNDY:inventory makes inventory easy! Scanning goods with SCANNDY barcode reader, adding quantity and position if requested, download data via USB to PC and modify, sort or print the data in Excel® automatically.

Up to 100.000 tasks per session as well as the easy handling of hard-and software makes SCANNDY:inventory a perfect solution for inventory and goods movement.

What does come with the solution:

- SCANNDYbasic 2MB, 19 keys and Display
- USB cable
- Power supply for battery charging
- Rechargeable Lilon battery
- Data collecting software and PC software for data download and easy transfer to Excel

Optional extensions:

- Cradle for easy battery recharge and Data Up/Download
- WLAN (WiFi)
- Bluetooth for SCANNDY and cradle (Class1 100m)
- Spare battery
- Car recharge
- Belt-clip
- Belt-bags (holster)

manufactured by:

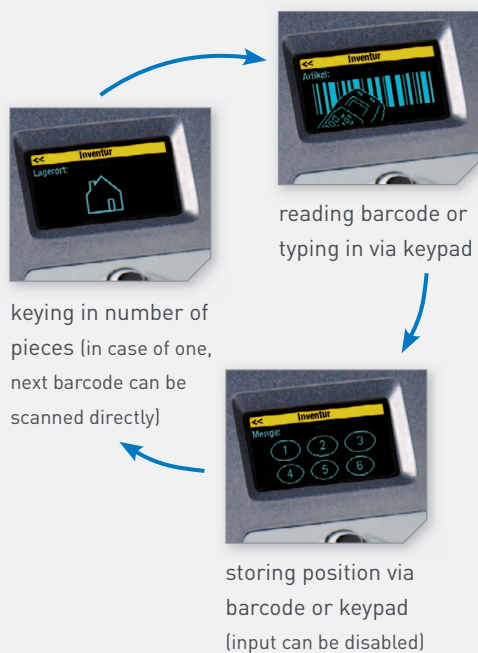

SCANNDY:inventory action

Quick-Start

The user ID can be stored at the beginning to notice who is responsible for the data collecting (this entry is not a must). Followed by this initial input the on going data collection will be as follows:

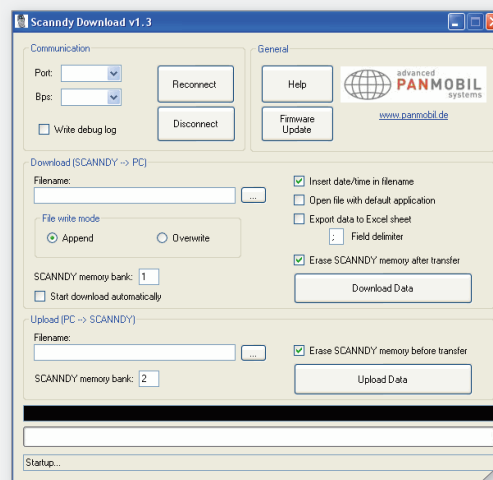

Data collection routine:

f.e.: 100.000 tasks
(20 character per task)

Storing data (download)

After connecting SCANNDY to PC via USB the data will be transferred automatically

Data processing

Excel® will start automatically and be used as usually:

- Editing data
- Sorting data
- Storing data
- Exporting data
- Graphic presentation
- Printing data
- Mailing data

1	Date	Worker ID	Mode	Barcode	Quantity	Location
2	2006-11-14 10:53:50	1905	INV	4002996895	47	B73
3	2006-11-14 10:59:14	1905	INV	40029948706	4	B74
4	2006-11-14 10:59:15	1905	INV	40029946827	76	Q23
